

ADDENDUM # 01

Project SWCD Building
To Plan Holders
From Mark Rossi – Project Manager
Owner Gilliam County Soil and Water Conservation District
Location Condon, Orgon
Date November 28 ,2017

Contractors Signature

Date

Bid Questions and Answers:

1. Acoustical insulation noted on plan; is it rock wool or R11 fiberglass?
 - ***Provide "Noise Reducer" by CertainTeed or equivalent, cavity fill.***
2. On sheet A5.12; Detail #2 and #3 Shows to install 2" wall angle, Detail #7 and #8 shows to install 7/8" wall angle. Supra fine grid system that is specified in project manual is 9/16" wall angle, which one is going to be used?
 - ***At suspended acoustical ceiling use, Supra Fine grid system of equal. Details with larger wall angles are for suspended gypsum board ceilings, 2" preferred supports.***
3. On sheet A6.10; Need a clarification that Wall types 6-02,6-12,6-18, has Resilient channel on one side only.
 - ***Resilient channel for all walls to be on one side only.***
4. On sheet A3.20; Mechanical room #114 is not listed on the finish schedule, is there sheetrock on the walls and ceiling? If so what is the finish level?
 - ***Mechanical Platform to have 5/8" gypsum wall board on walls and ceilings. Tape and mud only no finish.***

The following are changes to the bid construction documents:

Drawings: Look for Revision (Delta) #1

- 1) Sheet "C 00" added for existing conditions.
- 2) Sheet A1.20 updated to reflect heights and finishes.

Project Manual: Deletions are crossed out and additions are in bold underlined italics.

- 1) Section 00 9010 Material Legend - **Replace Section with attached.**

Substitutions:

- 1) Section 09 5100 Suspended Acoustical Ceilings - **Denied, CAC and LR rating doesn't meet specifications**
